

## **Customer Testimonials**

### **PH MEDIA**

To whom it may concern,

we purchased Artquest Crescendo in?

It was purchased through Bousfields from CT + Line.

Bearing in mind where we are situated in the country (St Austell, Cornwall). The attitude of many suppliers in the past has been very poor regarding service. Over a period of time we have dealt with a variety, including DuPont, Purup-Eskofot, Linotype-Hell, Agfa, Imation and more. These have companies have all been very reluctant to fix anything "same day" and even more reticent about providing phone support (no revenue in it).

Since using Artquest, which we have found to be excellent in every way, CT + Line have always been there for us both in person and with first class phone support. They have Pc Anywhere installed on the Crescendo server, which allows them to give us 24hr 7 day a week support.

CT + Line have given us peace of mind and is a first class company.

Yours sincerely

Keith Anspach
